

Publications of Mateo Mayer

Publications

1. Hoog N.A., Mayer MJJ, Miedema M., Olthuis W., Tomaszewska AA, Paulitsch-Fuchs AH, Van den Berg A
Online monitoring of biofouling using coaxial stub resonator technique
Sensing and Bio-Sensing Research 3 (2015) 79-91; [download pdf](#)
2. Hoog N.A., Mayer MJJ, Miedema H., Olthuis W. Leferink F.B.J., Van den Berg A.
Modeling and simulations of the amplitude-frequency response of transmission line type resonators filled with lossy dielectric fluids
Sensors and Actuators A 216 (2014) 147-157; [download pdf](#)
3. Hoog NA, Mayer MJJ, Miedema H, Wagterveld RM, Saakes M, Tuinstra J, Olthuis W, Van den Berg A
Stub resonators for online monitoring early stages of corrosion
Sensors and Actuators B 202 (2014) 1117-1136; [download pdf](#)
4. Hoog NA, Mayer MJJ, Miedema M, Olthuis W, Van den Berg A
Coaxial stub resonator for online monitoring early stages of corrosion
Key Engineering Materials Vol. 605 (2014) 111-114; [download pdf](#)
5. Hoog-Antonyuk N.A., Olthuis W., Mayer M.J.J., Yntema D., Miedema H., Van den Berg A.
Online fingerprinting of fluids using coaxial stub resonator technology
Sensors and Actuators B 163 (2012) 90-96; [download pdf](#)
6. Hoog NA, Olthuis W, Mayer MJJ, Miedema H, Leferink FBJ, Van den Berg A
Extensive modeling of a coaxial stub resonator for online fingerprinting of fluids
Procedia Engineering 47 (2012) 310-313; [download pdf](#)
7. Racyte J., Sharabati J., Paulitsch-Fuchs A.H., Yntema D.R., Mayer M.J.J., Bruning H., Rijnaarts H.H.M.
Combining fluidized activated carbon with weak alternating electric fields for disinfection
Carbon V49 Issue 15, 4957-5400 December 2011; [download pdf](#)
8. Wagterveld R.M., Boels, L., Mayer M.J., Witkamp G.J.
Visualisation of acoustic cavitation effects on suspended calcite crystals
Ultrason. Sonochem. 2010, May 24 [Epub ahead of print]
9. Boels L., Wagterveld R.M., Mayer M.J., Witkamp G.J.
Seeded calcite sonocrystallization
Journal of Crystal Growth, Vol:312(2010), issue 7, p. 961-966
10. M.F. Kemmere, M.J.J. Mayer, J. Meuldijk, A.A.H. Drinkenburg
The influence of 4-tert-butylcatechol on the emulsion polymerization of styrene
Journal of applied polymer science, 71 2419-2422 (1999)
11. M.J.J. Mayer, J. Meuldijk, D. Thoenes
Application of the plug flow with axial dispersion model for continuous emulsion polymerization in a pulsed packed column

- Chemical Engineering Science, **51** 3441-3448 (1996)
12. M.J.J. Mayer, F.H.A.M. van den Boomen, D.A. Paquet Jr., J. Meuldijk, D. Thoenes
The polymerization rate of freshly nucleated particles during emulsion polymerization with micellar nucleation
Journal of Polymer Science, Part A: Polym. Chem., **34** 1747-1751 (1996)
 13. M.J.J. Mayer, J. Meuldijk, D. Thoenes
Dynamic modeling of limited particle coagulation in emulsion polymerization
Journal of Applied Polymer Science, **59**83-90 (1996)
 14. M.J.J. Mayer, J. Meuldijk, D. Thoenes
Emulsion polymerization of styrene with disproportionated rosin acid soap as emulsifier
Journal of applied polymer science, **59** 1047 (1996)
 15. M.J.J. Mayer
The dynamics of batch and continuous emulsion polymerization
PhD Thesis, Eindhoven University of Technology, 1995 [Download pdf](#)
 16. M.J.J. Mayer, J. Meuldijk, D. Thoenes
Influence of disproportionated rosin acid soap on the emulsion polymerization kinetics of styrene
Journal of Applied Polymer Science, **56:22**, 119-126, Wiley (1995)
 17. M.J.J. Mayer, J. Meuldijk, D. Thoenes
High conversion emulsion polymerization in large scale reactors
Chemical Engineering Science, **50** 3329-3330 (1995)
 18. M.J.J. Mayer, R. Smeets, J. Meuldijk, D. Thoenes
Dynamic modeling of limited particle coagulation in emulsion polymerization
Poster presented at Conference on polymer reactor engineering
St Augustine, Floride, feb 13-18 (1994)
 19. M.J.J. Mayer, J. Meuldijk, D. Thoenes
Emulsion polymerization in various reactor types: Recipes with high monomer contents
Chemical Engineering Science, **49**, 4971-4980 (1994)
 20. J. Meuldijk, G.F.M. Hoedemakers, M.J.J. Mayer, D. Thoenes
Batch and continuous emulsion polymerization of styrene: Recipes not obeying simple Smith-Ewart Case II kinetics
K.H. Reichert, H.U. Moritz (Eds.), Dechema Monographs, **127** VCH Verlagsgesellschaft, Weinheim, 417 (1992)
 21. R.P.M. Guit, M. Kloosterman, G.W. Meindersma, M.J.J. Mayer, E.M. Meijer
Lipase kinetics: Hydrolysis of triacetin by lipase from Candida Cylindracea in an hollow fiber membrane reactor
